The ink industry is ridiculous! Just look at the price you pay for ink cartridges. Did you know you're paying over \$6,000 a gallon for your ink? What if someone offered an economical and earth friendly refill system that contained the highest quality premium ink? Do you think they'd make waves? Well, at InkWay USA we did just that! The ink market is a \$33.4 billion per year industry! Wouldn't you like to have a big piece of that pie? Would you like to help save money on a product every individual and business uses - all while profiting off of a \$33.4 billion a year industry? Here's **YOUR** calling!

Why is Inkway USA unique and different from other opportunities?

- What sells in network marketing is relationships and quality and we have both.
- You're selling a necessary, economical, high quality product based on the relationship you have with an individual.
- Consumers look at price more than anything else and we're more than competitive.
- Now the network marketers can offer an extremely high quality product to the world at an unbeatable price and share in that profit!
- People can't even go to the largest retailer in the world and get their ink at a better price!
- This isn't a product they have to convince the world to use – like a new health product, kitchen accessory, or car additive. It's a product people are **ALREADY** using daily!

What kind of market? – A HUGE MARKET!

- 1.7 BILLION Ink Jet cartridges sold worldwide each year! (This isn't even including laser & toner cartridges)
- Over \$33 BILLION spent worldwide!
- 1 ½ cartridges are sold for every man, woman & child in North America alone every year!
- Over \$15 BILLION digital photos are taken in the USA each & every year!
- People love printing their photos, which consumes ink!
